ABSTRACT OF THE INVENTION

5 The present invention provides to methods of preventing, treating or ameliorating
one or more symptoms associated with an autoimmune or inflammatory disorder utilizing
combinatorial therapy. In particular, the present invention provides methods of preventing,
treating, or ameliorating one or more symptoms associated with an autoimmune or
inflammatory disorder comprising administering to a subject in need thereof one or more
integrin $\alpha_v\beta_3$ antagonists and at least one other prophylactic or therapeutic agent. The
10 present invention also provides compositions and articles of manufacture for use in
preventing, treating or ameliorating one or more symptoms associated with an autoimmune
or inflammatory disorder.
